Questions 98-100 refer to the following excerpt from a meeting and chart.

OK, let's look at the customer satisfaction results for our four hotel locations last quarter. As you can see, most of our hotels scored well, but one location was noticeably lower than the rest. Guests there mentioned long wait times at check-in. To address this, we'll install self-service check-in kiosks in that hotel's lobby next month. If the kiosks improve scores, we'll add them to our other locations as well. Now, I'd like you to break into small groups and brainstorm other ways we can make check-in faster.
