Date:	Monday, 1 February
Subject:	Student Employment

Dear Mr. Borg,

I received your name and e-mail address from Professor Charles Wurramara at Rouselle University. I kindly request that you consider sponsoring an internship for one of our agricultural science undergraduates here at Rouselle. There are several potential benefits to your company from sponsoring an internship. Among them are having valuable support during peak work periods and a reduced learning curve for interns you may decide to hire full-time.

Rouselle students are serious and career oriented. Many fund their education through a mix of financial sources. And because internships are integrated with students' financial aid. Rouselle can subsidise up to 50 percent of your hourly pay expenses.

lease let me know at your earliest convenience whether this opportunity interests you. If you would like to discuss my proposal in greater detail, 1 may be reached by e-mail or by phone at (08) 5S50 7444.

Sincerely,

Eileen Tamblyn

(16 April)—Today marks the end of this year's International Health and Science Technology Association conference. This was our first conference in Toronto, and it has been a huge success! It you were unable to attend, you can follow the links on the Conferences page to see videos of some of the highlights. Be sure to view the awards presentation, where Erwin Loeb was honoured for his work designing apps for health care. You can also view demonstrations of some exciting new products.

It is not too early to start making plans to attend next year's conference in Singapore, scheduled for 5-9 March. Visit the Conferences page for full details.

Dear Mr. Loeb:

Congratulations on the award you received at the conference! We are delighted that you can extend your stay in our city by one day to put the finishing touches on the new app you designed for us. Our medical advisory board is eager to meet with you tomorrow. I have also organised a hospital tour, as well as meetings with department heads. I realise we will be packing a lot into one day, but we want to take full advantage of what little time we have with you. I have attached an agenda detailing the day's events. Please let me know if you have any questions.

I look forward to finally meeting you in person!

Sabrina Jeong
Chief Operating Officer, Atwin Hospital

PRODUCT REVIEW: Atwin Hospital app

As an independent researcher who does not work directly for any hospital or medical centre, I have tested numerous health-related apps. I am pleased to state that Atwin Hospital's Medi-Ready app is the most comprehensive I have ever seen. Patients can use it to schedule appointments, access their health history, and consult with medical staff. The employee-facing version features a user-friendly interface that allows doctors, nurses, and other critical staff to readily access and enter essential health information during patient visits, whether in a hospital or a doctor's office.

The secure software can be accessed through fingerprint recognition or a password. I found the biometric feature very sensitive, allowing users to open the software quickly. When it was first introduced, the app did not work on all platforms. That problem has since been rectified. Once it is downloaded, the Medi-Ready app is easy to navigate, and I had no problems using it. On the contrary, I found it extremely useful and efficient.

—Thomas Tamayo

191. What is one purpose of the Web page?
(A) To promote tourism in Singapore
(B) To advertise a product demonstration
(C) To provide information about health-care job openings
(D) To announce the availability of event recordings

(A) He is scheduled to tour Atwin Hospital.
(B) He met with Ms. Jeong at a conference.
(C) He has joined a medical advisory board.
(D) He will spend a week meeting with Atwin Hospital staff.

193. What is most likely true about Atwin Hospital?
(A) It is located in Toronto.
(B) It has won several awards.
(C) It sponsored a recent conference.
(D) it has opened a facility in Singapore.

194. What does Mr. Tamayo suggest in the review?
(A) He is employed by a medical organization.
(B) He regularly evaluates medical apps.
(C) He could not access the Medi-Ready app with a fingerprint.
(D) He had difficulty navigating the Medi-Ready app.

195. What can be concluded about the Medi-Ready app?
(A) It can be used only on certain platforms.
(B) It was designed for Atwin Hospital by Mr. Loeb.
(C) It cost more to develop than expected.
(D) It is based on a model created by Ms. Jeong.

Research Results Jasmine Face Cream
Prepared by the Bronigan Group

Executive Summary

Objective
To guin insight into the reasons why sales of Jasmine Face Cream have declined in the last three years

Methodology
Bronigan conducted focus groups in four areas of the country: The 60 participants represented a wide range of consumers.

Results
- Product quality: Fully 100 percent of focus group participants liked the fresh scent and creamy texture of Jasmine Face Cream as well as the fact that it contains all-natural ingredients.
- Price point: Some participants said the price was too high. Some longtime users mentioned that the price has doubled in the last ten years. However, they felt the current price was still reasonable given the quality of the product.
- Packaging: Many participants were critical of the product packaging. They were put off by what they called the "cheap looking," "dated," and "environmentally unfriendly" container and box.
